Summary

Detail-oriented Data Analyst with a strong technical foundation in SQL, Python, and Tableau, specializing in transforming complex datasets into actionable business intelligence. Adept at utilizing Advanced Excel, Power Query, and Power BI to build interactive dashboards and streamline reporting processes. Brings a proven track record of maintaining strict accuracy and compliance in high-pressure environments, eager to leverage analytical problem-solving skills to drive strategic, data-driven decisions.

Skills

- **Data Analysis & Visualization:** Power BI, Tableau, Advanced Excel, Power Query
- **Programming & Query Languages:** SQL, Python
- **Data Management & Processing:** Data Cleaning, Data Modeling, Data Transformation
- **Professional Skills:** Analytical Thinking, Problem Solving, Attention to Detail, Reporting

Projects

Global Supply Chain & Inventory Automation Engine | Excel, Power Query, VBA

- Engineered a multi-region inventory model using Power Query to consolidate 5,000+ daily transactional records across international warehouses, factoring in cross-border shipping lead times.
- Developed a custom VBA automation script to eliminate manual tracking overhead, programming the system to auto-generate and queue structured vendor purchase emails via Outlook to prevent global stockouts.

Multi-National Renewable Energy Performance Pipeline | PostgreSQL, Power BI

- Developed an end-to-end data pipeline utilizing PostgreSQL window functions to process heavy time-series generation data across global solar infrastructures, isolating hardware efficiency across varying climates.
- Designed an enterprise Power BI star-schema dashboard with advanced DAX measures to identify infrastructure degradation, enabling global stakeholders to transition from reactive repairs to predictive maintenance.

International E-Commerce Dynamic Pricing Engine | Python, PostgreSQL, Tableau

- Built a market intelligence pipeline using Python (Pandas) to extract, clean, and merge external competitor pricing for tech hardware across multiple global markets and currencies.
- Deployed an interactive Tableau command center connected to a PostgreSQL database to visualize regional price elasticity, empowering category managers to optimize international profit margins dynamically.

Education

Narsee Monjee Institute of Management Studies (NMIMS)	July 2026 - July 2028
MBA in Business Analytics	
Edure Learning	In Progress
Professional Diploma in Data Analytics	
University Institute Of Technology - UIT, Kollam	2021 - 2024
Bachelor of Business Administration	

Experience

Shilpi Engineering Pvt Ltd (BPCL Refinery), Safety Officer	Sept 2024 – Nov 2024
• Successfully completed a short-term refinery shutdown (turnaround) contract.	

Certifications

Google Data Analytics Professional Certificate – Coursera	In Progress
NEBOSH International General Certificate in Occupational Health and Safety	2024
